Selected Music Projects

Stereo Hypnosis - Father and son - Óskar Thorarensen one of the founders of the collective brut art group Inferno 5 (1984), Pan Thorarensen and Thorkell Atlason form the Ambient trio Stereo Hypnosis. The trio was stabilized, between field recording and photo sessions in the remote island Flatey (2006). Pan and Oskar, have combined over fifty years of musical carer in Iceland, and are well know and respected for their works. Porkell has been involved in classical contemporary music and pop music from his young age. He has worked as a composer and electronic musician in Rotterdam, Holland and also studied classical guitar. His works have been performed all around Europe and America.

Fyfield / Future Landscapes - In 2021 Pan start to work in a unique music project called "fyield" - together leading personalities of the Czech and Icelandic independent music scene. On the Czech side are Václav Havelka and Kryštof Kříček from the band Please The Trees. On their album, which is a crucial part of the interdisciplinary project Future Landscapes, they take the listener to places that are crucial to the functioning of contemporary civilization and invite nature and technologies to become their full fledged bandmates. Music composed of sounds from selected natural and industrial locations in the Czech and Icelandic landscapes here fuses with electronics, beats and music instruments.

Tunglleysa - Tunglleysa is an experimental and ambient project consisting of producer/musician Pan Thorarensen and the Composer Thorkell Atlason.

Up Node Network - Up Node Network - Up Node network, a platform for collaboration between a network of Nordic experimental music and sonic arts festivals. The collaboration consists of seven festivals in northern Europe and aims to strengthen new emerging artistic expressions and to exchange knowledge between partners to increase mobility for Nordic artists.

NERDS (North European Resonance And Dissonance Society)

About one others experimental music scenes, to initiate new collaborations and new audience exposure of adventurous Music events and artists in the Nordic-Baltic region. Network consists of some key organisations working with Experimental and innovative music in the nordic and Baltic regions.

Nerds are: Extreme Chill Festival - Skanu Mezs - Insomnia Festival - CTM Festival - Alter Festival - Intonal Festival

Selected Nominations/ Grants + Awards

2024 -

Reykjavik Grapevine Music Awards 2024 -

“Prolific driver of Iceland’s electronic music. “Pan is a tour de force both in musical output and event management” The panel Says. “ In the culture environment as it is today, its such a struggle to keep an event like Extreme Chill going, but he’s been doing it and keeping it fresh for 15 years while being active in the electronic sphere for even longer. The scene he’s created and his tireless support for more niche artists is do great for the city.”

2024 - Tónlistarsjóður - Rannís (fyrri Úthlutun)
